BIOGRAPHY OF THE AUTHOR, 146–148

PREFACE.

The Game of Checkers or Draughts has by several of the writers upon it been held to have preceded chess, of which it is supposed to be the root or source. In "M'Angus' Savage Life and Scenes," it is stated that draughts is played by the savage tribes of New Zealand under the name of E'mu, and it does not seem possible they could have derived their knowledge of it from any other people.

Chess, according to Sir William Jones, dates back some four thousand years; if draughts anticipated it, then upon the principle that "age is honorable," the recreation is one of no mean pretensions.

I have frequently been asked "Which is the deepest game, checkers or chess?" To which I have replied, "In one respect they are just alike, both being unfathomable and beyond the comprehension of the human mind."

The game of checkers, as an intellectual pastime, has no superior. It causes the rich and poor to intermingle in the most friendly manner; capital and labor are often seen struggling across the board in the most social style. Esteem and friendships spring up between devotees of the game, both far and near.

It was claimed by some that "the playing of checkers is conducive to longevity." Judging from the long lives of some of the Buffalo players, I must admit that such is the case.

Here is my old friend L. L. Hodges, with whom I played "many a game" forty years ago and since, and now at the age of eighty-nine he plays a few hours nearly every afternoon.

Mr. Hodges commenced playing at the age of ten years, and at fifteen was probably the best player in this country, and for many years was not excelled by any player in the United States, and I have no doubt he is now the strongest player of *his age*.

Since I have known Mr. Hodges he conducted a large business with success (but some ten years ago retired), and yet, during all that time, and since he retired from active business, he has devoted a few hours nearly every day to playing the game.

There are also several players residing in this city, whose ages range from seventy to eighty, who daily devote a few hours to the game, which furnishes them with a delightful pastime.

I had not the slightest intention, until a few months ago, of ever issuing another work on the game of checkers, but having retired from an active business life, and with leisure to compile a new treatise, I offer this, in hopes that it will meet the needs of the beginner and amateur player, whose benefit I have kept constantly in view, rather than the expert.

I have selected approved lines of play on the sixteen standard openings, and have given White's strong defensive lines on the *Single Corner, Glasgow, Laird and Lady, Whilter, Fife, Maid of the Mill, Will o' the Wisp, Dyke and Double Corner*, and defensive lines for Blacks on the *Old Fourteenth, Cross, Suter, Ayrshire Lassie, Second Double Corner, Defiance and Bristol.*

I have deemed it best to show how each side may lose in various stages of the game.

In *Irregular Games* I give play on openings known by some as

Paisley.	Var.	1—formed by 11–16, 24–19.

In *Traps and Shots* I give one hundred celebrated *Stroke Positions*, showing the games in full by which they are formed, and they show how *traps* are set for the "unwary," which beginners and amateurs, as well as advanced players, often walk into with their "eyes wide open." The *Positions* are elementary and practicable, often occurring in actual play.

The *Laws of the Game* I have in a few instances amended, to conform to the game as practiced in this country

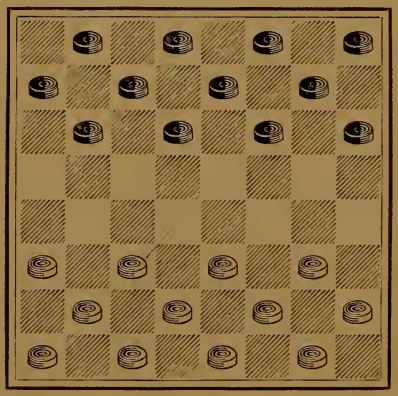
HENRY SPAYTH.

BUFFALO, N. Y., Jan., 1895.

INSTRUCTIONS.

The Game of Checkers is played on a board, as represented on the following diagram, at the commencement of the game.

BLACK.



WHITE.

Each player in turn moves one of his men to the right or left, and the men can only move forward one square at a time, until they reach the extreme line of the board, when they become kings, and, being crowned, can then move either forward or backward to the end of the game.

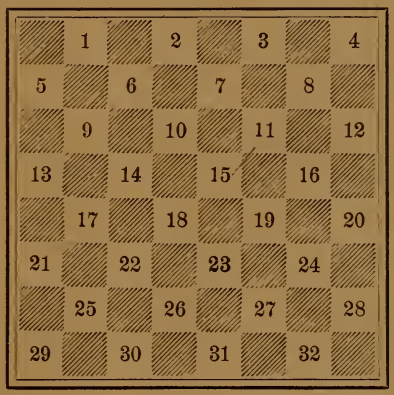
The men capture in the direction they move by leaping over any opposing piece that may be contiguous, provided there be a vacant square behind them to set the piece upon, and the men thus leaped are removed from the board.

When there are two ways of capturing, you may take your choice whether in one way one piece only is taken, or in the other way more. When you reach the king row, whether by a jump or otherwise, that terminates the move, until your opponent shall have moved, excepting when you leap in with a piece that is already a king—when you may leap out again if a piece lies in the way of capture.

The final object of each player is to confine his opponent's pieces in a situation where they can not be played, or, both to capture and fix, so that there may be none that can be played, and the person whose side is brought to this state loses the game.

The following diagram represents the board numbered, which is done for the purpose of recording and communicating the moves.

BLACK.



WHITE.

To play the game turn to page 12 and under *game* you will observe the first move for Blacks is 11 to 15; White replies by 22 to 18; Black jumps from 15 to 22; and White jumps 25 to 18; Black plays 8 to 11; White plays 29 to 25; Black plays 4 to 8; White 24 to 20, and so on to the bottom of the column, when the game is abandoned as drawn, neither side having any advantage.

Now, place all the men on the board again, and repeat the first four moves, and when you come to 8–11, you will observe at the left of 8–11 are the figures 1, 2, 3, 4, which refer to the next four variations: 1 refers to var. 1 in the next column, the first move being 12–16, which Black can make in place of 8–11, and by playing that column down to the bottom complete the game; 2 refers to var. 2; 3 refers to var. 3, and 4 refers to var. 4.

I would advise the learner to become thoroughly familiar with the *positions*, and master all the possible play that can arise from them.

THE MOVE AND ITS CHANGES.

THE MOVE.

To have the Move, signifies the occupying of that position on the board, which, in playing piece against piece, backward or forward, without regard to the others, till only one square intervenes between the pieces, will eventually cause the player who occupies that position to have the last move.

CALCULATION OF THE MOVE.

For this purpose the squares of the board are divided into two systems of four columns each.

The columns of one system being those numbered downward from squares 1, 2, 3, 4.

The columns of the other system being those numbered upward from squares 29, 30, 31, 32.

RULE.

Add together *all* the pieces, in either system, and if their *sum* is odd, it being your play, you have the move. If *even*, your opponent has the move.

To have the move, is usually an advantage in the endings, but in some cases it is not, and to have it, sometimes occasions the loss of the game.

THE CHANGES OF THE MOVE.

An exchange usually changes the move, but there are exceptions; some kinds of exchanges do not change the move. A few examples of exchanges are given.

Example 1.—Place Black men on 11 and 15; White men on 23 and 28. White plays first and *Black has the move.* Play 23 19, 15 24, 28 19, and *the move is changed.*

Example 2.—Black man on 25, Black king on 22; White men on 29 and 31. White plays first and *has the move.* Play 31 26, 22 31, 29-22, and *the move is not changed.*

Example 3—Black man on 1, Black king on 22; White man on 9, White king on 7. White plays first, and *Black has the move.* Play 9 6, 1 10, 7 14, and *the move is changed.*

Example 4—Black kings on 15 and 18; White kings on 11 and 25. White plays first, and *has the move.* Play 25 22, 15 8, 22 15, and *the move is not changed*

OPENINGS AND HOW FORMED.

Single Corner is formed by the first two moves, thus:
11–15, 22–18.

Old Fourteenth by the first five.
11–15, 23–19, 8–11, 22–17, 4–8.

Glasgow by the first five.
11–15, 23–19, 8–11, 22–17, 11–16.

Cross by the first two.
11–15, 23–18.

Laird and Lady by the first five.
11–15, 23–19, 8–11, 22–17, 9–13.

Suter by the first five.
11–15, 23–19, 9–14, 22–17, 6–9

Whilter by the first three or five.
11–15, 23–19, 9–14, 22–17, 7–11; or 11–15, 23–19, 7–11.

Ayrshire Lassie by the first two.
11–15, 24–20.

Fife by the first five.
11–15, 23–19, 9–14, 22–17, 5–9.

Second Double Corner by the first two.
11–15, 24–19.

Maid of the Mill by the first three or five.
11–15, 22–17, 8–11, 17–13, 15–18; or 11–15, 22–17, 15–18.

Defiance by the first four.
11–15, 23–19, 9–14, 27–23.

Will o' the Wisp by the first three.
11–15, 23–19, 9–13.

Dyke by the first three.
11–15, 22–17, 15–19.

Double Corner by the first.
9–14.

Bristol by the first three.
11–16, 24–20, 16–19.

Irregular Games. See preface for details.

LAWS OF THE GAME.

1. The standard board must be of light and dark squares, not less than fourteen inches nor more than fifteen inches across the squares.

2. The standard men, technically described as White and Black, must be light and dark, turned and round, not less than one inch, nor more than one and one-eighth inch in diameter.

3. The board shall be placed so that the bottom corner square on the left hand shall be black.

4. The men shall be placed on the black squares.

5. The Black men shall be invariably placed upon the real or supposed first twelve squares of the board ; the White upon the last twelve squares.

6. Each player shall play alternately with Black and White men, and lots shall be cast for the color only once, viz : at the commencement of a match, the winner to have the choice of taking Black or White.

7. The first play must be *invariably* made by the person having the Black men, and that alternately till the end of the match.

8. TIME.—At the end of five minutes (if the play has not been previously made) time must be called by the person appointed for the purpose, in a distinct manner, and if the play be not completed on the expiration of another minute, the game shall be adjudged to be lost through improper delay.

9. When there is only *one way* of taking *one or more* pieces, time shall be called at the end of ONE MINUTE, and if the play be not completed on the expiration of another minute, the game shall be adjudged to be lost through improper delay.

10. Before the commencement of a game either player is entitled to arrange his own or his opponent's pieces properly on the squares.

11. After the first move has been made, however, if either player touch or arrange any piece without giving notice to his opponent, he shall be cautioned for the first offense, and shall forfeit the game for any subsequent act of the kind.

12. If *any part* of a playable piece is played over an angle of the square on which it is stationed, the play must be completed in *that* direction.

13. A capturing play, as well as an ordinary one, is completed whenever the hand has been withdrawn from the piece played, even although one or more pieces should have been taken.

14. When one of the players has an opportunity to jump and moves a piece in place of doing so, his opponent has the option to let the move remain as played or to have the move recalled and compel the capture, but can not restrict the way to capture should there be more than one way to do so.

15. When a man first reaches any of the squares on the opposite extreme line of the board it becomes a King, and can be moved backward or forward as the limits of the board permit, though not in the same play, and must be crowned (by placing a man on the top of it) by the opponent; if he neglect to do so, and play, any such play shall be put back until the man be crowned

16. Either player making a false or improper move shall instantly forfeit the game to his opponent, without another move being made.

17. When taking, if either player remove one of his own pieces, *he* cannot replace it; but his *opponent* can either play or insist on his replacing it.

18. A Draw is when neither of the players can force a win; when one of the sides appear stronger than the other, the stronger party is required to complete the win, or show at least a decided advantage over his opponent within forty of his own moves—to be counted from the point at which *notice* was given—failing in which he must relinquish the game as a draw.

19. Anything which may tend either to annoy or distract the attention of the player is strictly forbidden; such as making signs or sounds, pointing or hovering over the board, unnecessarily delaying to move a piece touched, or smoking. Any *principal* so acting, after having been warned of the consequence, and requested to desist, shall forfeit the game.

20. While a game is pending, neither player is permitted to leave the room without giving a sufficient reason, or receiving the other's consent or company.

21. Either player committing a breach of any of these laws must submit to the penalty, and his opponent is equally bound to exact the same

22. Any spectator giving warning either by sign, sound or remark, on any of the games, whether played or pending, shall be expelled from the room during the match.

23. Should any dispute occur, not satisfactorily determined by the preceding laws, a *written statement of facts* must be sent to a disinterested arbiter, having a knowledge of the game, whose decision shall be final.

24. A match must consist of an even number of games, so that each player will have the first move the same number of times.

a. This is best, although some prefer 26 23.

b. Although White has a man ahead, Black has an equal game.

c. 15 19, 24 15, 6 9 draws, see Fife at 35th move, page 62.

d. White is compelled to surrender the man ahead.

e. 23 18, 3 7 draws.

f. A new and safe move, forcing Black to play for a draw.

In judging the foregoing model games from the standpoint of invincible play on both sides, it is very evident that each player had great respect for his opponent's skill, not daring to vary from what was considered the strongest moves.

From the American Checker Review, Chicago, of March, 1892:

HENRY SPAYTH.

A Biographical Sketch of the Career of the Famous Author.

As the subject of its biographical department for this issue, the *Review* has selected Mr. Henry Spayth, of Buffalo, N. Y. There are many who to-day take delight in the study and practice of checkers, with whose earliest recollection of the game the name of Spayth is closely interwoven. In childhood they have heard the name of the veteran uttered by their fathers—checker players of years agone—and to his works on the game they owe very much of their knowledge of its beauties.

Mr. Spayth was born in Westmoreland county, Pa., July 29, 1825, and at the age of three years removed with his parents to Williamsville, near Buffalo, N. Y. Commencing his business career in Buffalo in 1845, he was variously employed until 1852, when he entered the Niagara White Lead Company (changed to Cornell Lead Company in 1867), at the corner of Delaware avenue and Virginia street, as bookkeeper, filling every position he occupied with the highest honors for industry and integrity. For thirty-six years Mr. Spayth was connected, in the various capacities of stockholder, director and treasurer, with the Cornell Lead Company, a fact which speaks volumes for his integrity, executive ability, and the faithful discharge of his important trusts.

Mr. Spayth has made not only a national, but world-wide reputation as one of the best checker players that ever lived, as well as one of the greatest authors on this scientific game. All of his work on this subject was accomplished during leisure hours, he never allowing it to interfere with his business.

In 1860 he published the "American Draught Player, *or the Theory and Practice of the Scientific Game of Checkers*," a work of 300 pages, containing some 1,700 games and positions. In 1863 he issued "The Game of Draughts," containing about 500 games and positions. In 1865 he published "Draughts or Checkers for Beginners." To show the popularity of these works it may be said that now—over thirty years since their issue—more copies are sold each year than ever before, they still remaining standard works on the game.

In 1880 Mr. Spayth retired from active participation in the game, in order to devote his spare time and attention to investments in real estate. In the latter field, close application to business (a natural trait, which was doubtless augmented by the experience acquired in deep study of his favorite pas-

time) has brought him a generous competence. And now, having placed himself in a position to spend his remaining years in comparative ease, he again finds enjoyment in an occasional contest with a friend, and in imparting to others valuable information gained during his career as a checker player. Long may he retain his vigor.

In 1851 Henry Spayth was united in marriage with Caroline Post, of Buffalo. The love, affection and intelligence of the devoted wife have made their last forty-four years' journey through life a happy one.

From the Detroit News-Tribune, July 15, 1894:

HENRY SPAYTH.

A Checker Player and Analyst of World Wide Reputation.

Henry Spayth, the author of "The American Draught Player," who will be in Detroit this week, will be at the rooms of the Checker Club on Saturday next, and every day next week. He was born July 29, 1825, and is consequently sixty-nine years of age, and he is a player, analyst and author of world wide reputation.

In his busy manhood, he devoted his leisure hours to the scientific game of checkers. In 1860 he published "The American Draught Player." In 1863 he issued "The Game of Draughts." In 1865 he published "Draughts or Checkers for Beginners." These works became immensely popular, ran through many editions and circulated in all parts of the world where the English language is spoken.

From 1860 to 1880, a score of years, Mr. Spayth played thousands of players in the United States and Canada, and was defeated only twice, which is a remarkable record.

In 1880 Mr. Spayth retired from active participation in the game, but last year again resumed playing at the Buffalo Checker Club, meeting all who desired a game, with the greatest success. Within the past few months Mr. Spayth has given two exhibitions of simultaneous play at Buffalo and one at Tonawanda, N. Y., with the strongest players of those clubs, resulting as follows:

At Buffalo	vs.	12	players,	22	games,	Mr.	Spayth	won	13,	lost	1,	drawn 8.

From the same, July 29, 1894:

HENRY SPAYTH IN DETROIT.

The game of checkers received a great impetus in Detroit last week by the visit of Henry Spayth, of Buffalo, the Phenomenal Checker Player and author of world wide reputation. His success *was phenomenal* considering his advanced years, and his playing twenty-two games simultaneously with 10 players in 2 hours' time, with the strong players of the Detroit Checker Club, could not probably be surpassed by any player in America. The score was as follows: Mr. Spayth won 11, lost 1, drawn 10.

To play the game with one good opponent generally demands all the attention and skill of the mind, but when a player has to move from game to game, analyze the ever-changing situations, make his moves and score a triumph, it becomes an intellectual feat.

From the Amherst Bee, of Williamsville, N. Y., May 9, 1895:

PHENOMENAL CHECKER PLAYING.

Mr. Henry Spayth, of Buffalo, who from his early childhood and until the age of twenty resided here, entertained the Williamsville Checker Club at the Y. M. C. A. rooms on Tuesday evening with an exhibition of simultaneous checkers, playing 13 players 35 games in 2½ hours' time, resulting as follows:

Mr. Spayth won 35, lost 0, drawn 0.

Mr. Spayth is standard authority on the game. In 1860 he published "The American Draught Player" In 1863, "The Game of Draughts." In 1865, "Draughts or Checkers for Beginners," and he has now in press a new work entitled "The Checker Player," which will be out in two months.

In 1880 Mr. Spayth retired from active playing of the game, but two years ago again resumed. From 1860 to 1880 Mr. Spayth encountered thousands of players, and during that time was defeated only twice, leaving a record equal if not superior to any player that ever lived.
